

IS IT NAÏVE TO THINK THAT INFORMATION TECHNOLOGY COMPANIES HAVE THE POWER TO IMPROVE OUR HEALTHCARE SYSTEM?

The GPMF consulting philosophy centers on using information technology and strategic alliances as a means of reducing healthcare costs, improving the health of populations, bettering the patient experience, and allowing clinicians to do what they do best...deliver quality care.

VertitechIT - With a keen focus on people, process, and technology, VertitechIT designs and implements IT roadmaps for health systems across North America.

Nectar Strategic Consulting - Nectar brings global healthcare leaders together in a boutique consulting environment, offering a unique perspective on unifying best in class technology and driving healthcare transformation to achieve clinical objectives.

baytechIT - A managed service provider and value-added reseller, baytechIT is one of the only "healthcare-centric" MSPs in North America.

akiro - From revenue cycle and financial management, to complex M&A transaction support, akiro is all about the "business" of healthcare.

Liberty Fox - Liberty Fox leverages extensive analytics, automation, and cloud technologies to create customized software applications for EMR, revenue cycle management, CRM, and business intelligence processes.
